Application No. 09/995,697

Attorney Docket No. PAT 2678- 2 US

Filed: November 29, 2001

For: **STREAM PROCESSING NODE**

**DECISION ON PETITION TO
CONTEST THE HOLDING OF
NONCOMPLIANCE OF APPLICANT'S
APPEAL BRIEF 37 CFR §1.181**

This is a decision on the petition filed August 2, 2006 under 37 C.F.R. §1.181 to contest the holding of noncompliance of Applicant's Appeal Brief.

The petition is **GRANTED**.

In the Non-compliant Appeal Brief dated July 16, 2007, the examiner stated that “A concise explanation of the subject matter defined in each of the independent claims involved in the appeal, which shall refer to the specification by page and fine number, and to the drawing, if any, by reference characters. For each independent claim involved in the appeal and for each dependent claim argued separately under the provisions of paragraph (c)(1)(vii) of this section. Applicant argues dependent claims 2-25, 27-29 and 34-38 in section VII but does not have a concise explanation in section V.”

Applicant argued that “The Notification of Non-Compliant Appeal Brief, dated July 16, 2007, incorrectly alleges that the Appeal Brief does not comply with 37 C.F.R. 41.37 on the ground that the summary of dependent claims 2-25, 27-29 and 34-38 must refer to the specification and/or figures. Rule 41.37 (c)(1)(v) only requires that “for each dependant claim...every means plus function and step plus function...must be identified and the structure, material, or acts described in the specification as corresponding to each claimed function must be set forth with reference to the specification...and to the drawings.” However, claims 2-25, 27-29 and 34-38 are not means plus function or step plus function claims. Accordingly, applicant respectfully submits that the appeal brief complies with the requirement of the rule and that the Notification of Non-Compliant Appeal Brief is without basis.”

Rule 41.37 (c)1(v) in its entirety states :

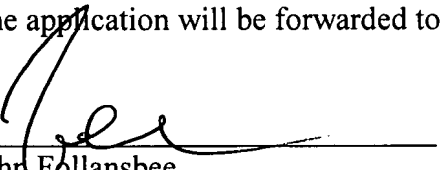

(v) *Summary of claimed subject matter.* A concise explanation of the subject matter defined in each of the independent claims involved in the appeal, which shall refer to the specification by page and line number, and to the drawing, if any, by reference characters. For each independent claim involved in the appeal and for each dependent claim argued separately under the provisions of paragraph (c)(1)(vii) of this section, every means plus function and step plus function as permitted by 35 U.S.C. 112, sixth paragraph, must be identified and the structure, material, or acts described in the specification as

corresponding to each claimed function must be set forth with reference to the specification by page and line number, and to the drawing, if any, by reference characters.

Based on Rule 41.37 (c)(1)(v), the examiners requirement to provide a discussion, with page and line number from the specification for each dependent claim argued separately, where the The petitioner's arguments with respect of the holding of noncompliance of Applicant's Appeal Brief are persuasive.

For the above reasons, the petition is **GRANTED**.

The application will be forwarded to the examiner for consideration on the merits.
